

THANK YOU FOR YOUR PURCHASE

Thank you for choosing our open-bottom glass table lamp. This piece is handcrafted to add light and elegance to your space. Because glass requires special care when resting on furniture, please read the important safety and protection guidelines below.

IMPORTANT SURFACE SAFETY WARNING

To prevent permanent damage to your home furnishings and the lamp itself, please follow these instructions carefully:

- **Use a Protective Barrier:** Never place the bare glass base directly onto delicate wood, lacquer, veneer, or glass surfaces.
- **Apply Padding:** Always use a felt pad, a cork mat, or a fabric coaster underneath the bottom rim to prevent scratching.
- **Keep Surfaces Dry:** Ensure your tabletop is 100% dry before positioning the lamp. Trapped moisture under glass can ruin furniture finishes.
- **Lift, Do Not Slide:** When moving the lamp for cleaning or rearranging, always lift it completely. Sliding the lamp may scratch your tabletop.
- **Clean the Interior:** Because the bottom is open, dust may collect inside. Unplug the lamp and lift it carefully to wipe the interior with a dry, microfiber cloth.
