

THE MOST DESIRABLE COLLECTION

After 50 years of designing and manufacturing lighting of all shapes and sizes, we've learnt that creating something truly special requires more than just inspired design - it needs a passion for excellence, a fine eye for detail and the application of exacting standards.

Following the success of our first micro collection of the most desirable feature lighting, our talented UK design team led by Peter Legg has added exciting new pieces and expanded on some popular collections. Each piece has been designed with the same principles, reflecting great design and made using only the finest materials. These handmade pieces are created in small batches with limited production runs and are often made to order.

These pieces are of a size and weight that require specialist installation. Our network of expert lighting suppliers will be able to advise you from ensuring your chosen light is suitable for the space, checking the access for delivery and installation, to assessing any installation requirements with particular regard for the weight of the fittings and access for future maintenance. Most of these glorious lights will need to be dressed once the frame is installed to ensure your selection looks its best for years to come. This process will take a little time and may require specialist support.

Your lighting supplier will be able to advise you on all of these aspects.

BESPOKE

Although we've considered the vast majority of spaces with this collection, we understand sometimes only something truly unique will do. If you need to create a bespoke size or colour of a particular item, you can discuss this with your lighting specialist and we will work with them to advise you of the cost and lead time of your bespoke piece.

SHADING

Exceptional table lamps can only be finished with the finest lamp shades. We've partnered with The Light Shade Studio, whose team of experienced shade-makers use superior materials to create the highest quality lamp shades.

CHANDELIERS

4 – 53

A well designed chandelier creates a centre piece like no other whether lit or unlit. A beautiful sculptural balanced fitting is achieved by using the best quality materials and metal finishes; from cut crystal or heavy glass rods, to sumptuous luxury hand applied finishes such as gold leaf. We have been designing chandeliers for 50 years and our talented design team now produce unique pieces in both modern and traditional styles for many types of spaces, from cosy living rooms all the way to grand atriums and the smartest hotels.

We really think about the spaces these pieces may adorn and so we have created chandeliers of differing proportions; long slender chandeliers such as the Angel and Eleanor which look spectacular in double height spaces or lofted ceilings. We know that not every space has the height to accommodate these cascading show pieces, so we've created chandeliers that still steal the show but with a lower profile allowing them to be used where ceiling height is limited, such as the Eulalia flush chandelier or Teyana low profile circular chandelier.

TABLE LAMPS

54 - 65

Slip cast ceramics are hand made and are very labour intensive. The shape is hand poured, finished by hand and then kiln fired. The large scale of these table lamp bases mean that there will always be some losses in the kiln. After the first firing, once inspected for any kiln defects, the patterns are applied expertly by hand and the lamp is fired again. Once more some bases will not make it through the intense heat of the firing process. Next the bases are dip glazed and fired a third time, before having gold details individually applied by hand and being fired for a final time.

These table lamps are truly a labour of love.

RHAPSODY

With eight stepped tiers of bevelled crystals suspended from a bronze frame, the Rhapsody chandelier combines luxury materials with grand proportions making a fabulous statement wherever it's placed. Supplied with 3 metres of cable and matching bronze chain, the height can be adjusted from just under a metre to nearly 4 metres making this an excellent choice for lower ceiling height spaces or lofty halls.

ANGEL

A complete range of cascading crystals, featuring two sizes of chandelier, floor lamp and grand wall light. The flag-ship tall chandelier with nearly 1.5 metres of bevelled crystals hanging from a polished chrome frame. The slender profile of this stunning chandelier lends itself to be the focal point of a staircase, or if height allows, Angel makes a tremendous statement above a dining table.

TEYANA

This circular chandelier comprises hundreds of pieces of beautiful bevel-cut crystal. The clear crystal reflects its surroundings effortlessly to create a stunning centrepiece. Its shallow height, steel tension cables, and reflective crystal coffins create a sense of weightlessness. With a diameter of over 80cm and an adjustable height of between 50 and 200cm, this large chandelier is very versatile.

ALPHEIOS

Hundreds of clear glass rods accented by stainless steel make up this minimally layered chandelier. Glass rods give a slightly softer look than sharply-cut crystal whilst still playing with the light whether switched on or off. Alpheios floats weightlessly in space thanks to the modern steel cable suspension system.

PORTHOS

An interesting arrangement of heavily textured glass with elongated lenses gives a magical effect to this large but shallow chandelier. The natural brass frame is elegant when viewed from below. The low profile of the fitting and 2 metres of adjustable chain allow the Porthos to be used in most situations making it a very versatile choice. The matching wall bracket compliments the centre fitting but works equally well on its own.

JOLYON

The Jolyon pendant range has a slender profile provides a contemporary silhouette; contemporary satin silk adds interest to this minimal form. This range is as practical as it is beautiful, offered in two sizes and three luxurious metal finishes; polished chrome, satin brass and aged bronze.

Finished with a frosted diffuser, both top and bottom, keeping dust out and keeping the Jolyon pendant looking sleek from above or below; allowing the Jolyon low over a table or even in a double-height space and still look great. Fitted with 1.5m of suspension wires, that can be adjusted during installation.

Our partners at The Light Shade Studio can customise the silk shade to suit your interior scheme.
