LAMPS (LIGHT BULBS) 617–625
our own collection of high quality LED and halogen lamps

INDEX 626–644
a visual technical index followed by a complete alphabetical index

Tea Smoked & Textured Glass

With a nod to the glamour of the 1970s, tea-smoked glass is a sophisticated evolution of coloured glass. Its subtle brown and amethyst tones, combined with a distinctive handmade hammered texture, create soft reflections and refractions. Paired with aged bronze for a refined contemporary look, our designers have reimagined this timeless aesthetic across a range of fittings, making it a versatile choice for almost any interior.

6. **MEG0763** Megara Wall Light p37
7. **IZA4229** Izar Table Lamp p551

Amber & Bronze

Mellow amber glass and glowing metallics remain an ever popular choice. Rich bronze or burnished gold combined with glowing amber create depth and a warm ambience inducing a feeling of welcome into any interior scheme. From classic hoops to sharp contemporary arrays these designs cast a softer light that can transform even large interiors into intimate, comfortable spaces.

BEV0735 Bevin Wall Light p425

Cottagecore

A trend that continues to grow, the Cottagecore trend celebrates comfort, craftsmanship and a connection to nature. Our expanded collection reflects this nostalgic aesthetic with simple yet elegant fittings designed to complement both classic and contemporary interiors. Offering a choice of interchangeable shades - from glass and ceramic to woven rattan - each design can be personalised to create a look that's uniquely your own, bringing warmth, character and enduring style to every room.

JED0742 Jedrek Single Spotlight p437

Opulent Opal

A contemporary interpretation of Art Deco design, this collection showcases beautifully crafted duplex opal glass in a range of sculptural pendants and flush ceiling lights designed for modern living. Combining the soft, diffused glow of opal glass with clean, modern silhouettes, each piece offers a timeless aesthetic that feels both elegant and current.

5. SUM0163 Sumitra Small Pendant p281

Naturally Inspired

Drawing inspiration from the organic beauty of nature, this look celebrates the enduring character of travertine and alabaster, paired with the rich warmth of patinated aged bronze. The unique textures and subtle variations of these materials bring depth, authenticity and understated luxury to each design; ranging from striking statement pendants and elegant multi-arm shaded fittings to sophisticated bathroom lights and versatile flush ceiling fixtures.

Old Friends, New Trends

We have refreshed some of our most popular collections with the latest trend-led colours, finishes and materials, creating versatile new styles especially suited to contemporary interiors and hospitality environments. Aged bronze brings a sophisticated update to bestselling pieces, while natural linen and ivory cotton shades reflect the growing preference for organic materials and understated luxury. Our rechargeable lighting collection has been expanded with new finishes and shade options, offering a flexible and eclectic mix for a wide range of interior schemes.

BATHROOM

The following information is a guide to help you understand which fittings can be placed where. This is not an installation guide and reference should be made to the **IEE Wiring Regulations** (18th Edition) or a qualified electrician.

Firstly it is important to understand the rating by which bathroom and some outdoor lights are classified.

IP rating stands for "Ingress Protection" and is always followed by two characters. These two numbers refer to the level of protection, and it is important that you choose fittings with the correct rating according to where they are to be sited within the bathroom.

The diagram below shows a bathroom split into three clear zones: 0, 1 & 2.

Zone 0 is inside the bath or shower itself. Any fitting used in this zone must be low voltage (max 12V) and be rated at least IP67 which is immersion proof.

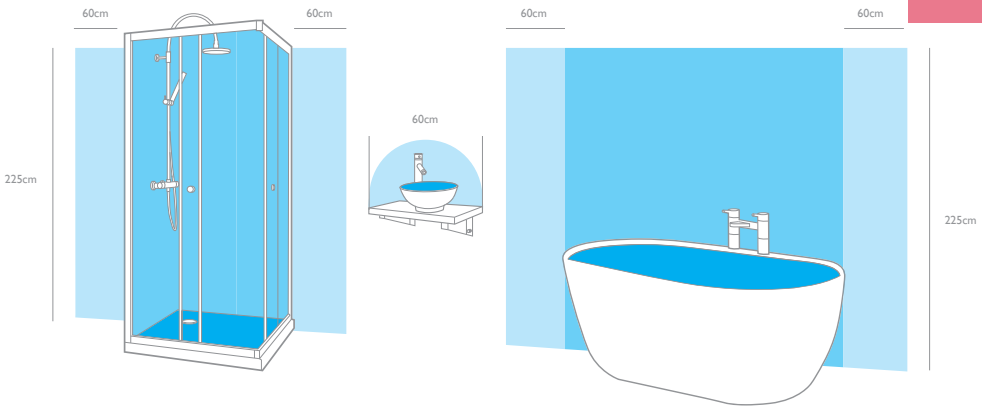

Zone 1 is the area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required.

Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m* from the floor. In this zone an IP rating of at least IP44 is required.

The lighting circuit within a bathroom should be protected with a 30ma residual current device (RCD).

In addition, it is good practice to consider the area around a wash basin, within a 60cm radius of any tap, to be considered as Zone 2.

* In accordance with advice from the Lighting Industry Association the location above Zone 1 (over the bath or shower) up to a ceiling height of 3m continues to be classified as Zone 2.

0 ZONE

Within the bath or shower tray. All lights fitted within this area must be IP68 rated and low voltage.

1 ZONE

Above the bath or shower to a height of 2.25m. All lights fitted within this area must be a minimum of IP44 rated. IP44 is suitable where there is no shower head above the bath. IP65 is required if there is a shower head or demountable shower hand fitting in use.

2 ZONE

0.6m outside of zone 1 and a 60cm radius above washstands. All lights fitted within this area should be a minimum of IP44 unless there is a danger of direct jet spray, in which case an IP65 rating is required.

VERSACE

RECHARGEABLE WALL LIGHTS

Our range of wireless wall lights means finally saying goodbye to sockets, cables and complicated installs, and giving yourself the freedom to illuminate your space exactly how you want it.

Effortless: No electricians, no wires, just one screw and you're done!

Rechargeable: No batteries - a full USB-C charge will last up to 8 hours

Wireless: Perfect for parents, renters, home improvers and minimalists alike

Smart: Features a three stage dimmer with ambient mode for mood lighting

Lampshade compatible: Pair with our extensive range of E14 or B22 lamp shades (see page 605)

Great care is taken to ensure colours used in this catalogue represent our products as closely as possible. However, limitations in the printing process may result in some variation.

Products featuring natural materials like alabaster or travertine are unique in their characteristics. Variation in colour, texture and veining are a key part of their beauty. Each piece is unique.

We are continually evolving our collection and reserve the right to make changes to products and specifications without notice. This catalogue supersedes all previous editions

All copyright, design rights and other intellectual property relating to our products and marketing materials remain the property of där lighting group.
